Band 3 | Baseball/Soccer field, basketball courts, skatepark, playgrounds, bathrooms, horse shoes, Pow Wow Grounds, picnic tables, grills, sand volleyball courts. Indoor facilities: locker rooms, rubberized track, weight room, aerobics/dance studio, and cardiovascular area. | 40 | | | X | Stallman Road Peshawbestown Section 10 |

C. Recreation Opportunities

Many opportunities exist for individual recreation, versus team sports. The township has many access points to the water for summer swimming and boating. Most roads in the township are little traveled by cars and trucks, allowing excellent bicycling, walking, and running. The Leelanau Trail offers year round recreation, allowing safe walking, hiking, bicycling, cross-country skiing, etc. Winter sports opportunities include ice skating and sledding at village facilities; groomed cross-country skiing on the Leelanau Trail; and informal snowshoeing. The following summarizes individual opportunities within the township.

Baseball/Softball: The Suttons Bay Youth League provides both baseball and softball opportunities for Suttons Bay youth each summer. In addition, a local T-Ball League is offered each summer. In the past year, 150 players participated out of Suttons Bay, while the county youth numbers neared 500.

Bicycle (Road & Mountain): The township roads, except for M-22 and M-204 are little traveled providing ideal bicycle riding. M-204 has a three foot paved shoulder on both sides of the road. M-22 has six foot shoulder south of Suttons Bay Village and three foot shoulder north of M-204. The shoulders north of M-204 are bikeable, but need repair. The Leelanau Trail is paved for 2.5 miles to the township limit and then is hard pack for about four miles until you hit the paved portion near Traverse City. The unpaved portion offers easy mountain biking terrain.
